

THE ARIZONA SILVER BELT.

OFFICIAL PAPER OF GILA CO.

Saturday, October 18, 1884.

The public debt statement for September shows a decrease of \$12,047,039.

Experiments with a new electric railroad motor have been satisfactorily made in St. Louis.

An association is forming in London for the protection of holders of American railway securities.

Gilbrath McMillen, of Mercer county, Pennsylvania, born 1780, died in September last, aged 104 years.

Maud S, in an attempt at Hartford, Conn., to lower her record of 2.09, only succeeded in trotting a mile in 2.12.

Republican majority in Ohio 10,160, with 10 Republican and 10 Democratic Congressmen. Eleventh District still in doubt.

A meeting of 4,000 unemployed workmen of Glasgow, Scotland, was held on the 10th inst. They passed a resolution asking the magistrate to assist them.

A movement has been started among Irish National League Societies to extend an invitation to Irish-American leaders, including Alexander Sullivan and Congressman Finerty, to visit Ireland.

The Phoenix Gazette says: At present there are 190 men employed in the construction of the Prescott water-works and more are wanted to push it to completion before the winter snows come. Supt. Allen says that work is being expeditiously pushed by his limited number of men and with a few more, with no unseen obstacles to contend against, he will "turn the water on" by December 1st.

There is another vacancy on the Blaine electoral ticket of New York State. Dr. W. E. Forest, elector for the Sixth District of New York City, has informed the State Committee that he resigns because he "cannot conscientiously support the present nominee for President, James G. Blaine." He declines to give his reasons any more fully, because "they must be patent to everybody," and they undoubtedly are.

The State election in Ohio, on the 14th, resulted in a victory for the Republicans. West-Virginia, in proportion to population, on the same day, more than offset the Republican majority in Ohio by giving a large Democratic majority. Heretofore West-Virginia has been regarded by the Democrats as one of the doubtful States. Elkins, Blaine's political manager, classed it as distinctively Republican.

Congress of Federated Trades-Strikes and Their Supervision.

At the session of the Federation of Labor and Trades Unions, held at Chicago on the 9th inst., a resolution to make the question of arbitration as a substitute for strikes in the adjustment of difficulties between employers and employees a special order for the next session of the Federation, and that all organizations tributary to the Federation be advised of such action, was unanimously adopted. A resolution asking Congress to supply the Federation with 300,000 copies of the Congressional Report on education and labor was unanimously adopted. It is thought that great benefits will accrue from the distribution of these reports among the laboring classes.

An article was added constituting a legislative committee to have legal authority over strikes while they are approved, and to supervise and levy an assessment of 2 cents on every member of the Federation, and to pay \$3 per week to every man on a strike. This will become a law when it is agreed to by a two-thirds vote of the unions.

James Freeman Clarke, an eminent divine, in a speech delivered recently in Boston, had the following to say in support of Gov. Cleveland: "I agree with my old friend Bishop Huntington, of New York, that Cleveland, having risen above these past errors, and left them behind him, is not, if we follow the principles of the Gospel of Christ, to be prevented from rising to any height of usefulness. He has shown his repentance in the true way, by doing works meet for repentance. It is only a hard and narrow bigotry which would condemn a man forever for a past ill deed. 'But,' you may say, 'will you reward a man with the Presidency who has committed this offense against social morals?' Public office is not a reward, but a duty. If we make him, or any other man, our President, it is because he is fitted for the work of a President. The people of Buffalo took him because they needed him to do a work; and he did it honorably and well. The people of the State did not reward him when he was chosen Governor. He was taken because he was the right man in the right place. If elected President, it will not be as a reward of merit, but as selected to do the work because he has the power."

TERRITORIAL TOPICS.

Condensed from Our Exchanges for "Silver Belt" Readers.

Tombstone at the last county election polled 1537 votes for sheriff. It is estimated that the vote this year will not reach 1250.

The new depot being built at Tucson by the Southern Pacific R. R. will be, it is said, the finest structure of the kind between that city and San Francisco.

The Epitaph reports the capture of a Mexican rustler, and the recovery of a number of stolen horses near Bisbee. A companion of the prisoner escaped, through the fleetness of his horse.

James Young and William Jenkins, colored pugilists, of Tombstone, have signed articles for a glove fight, to a finish, London prize ring rules, for \$100. The fight is set for the 25th of October.

Maricopa county horse thieves are having a tough time of it; two have been captured near Prescott and a third is now in the Florence jail. Still another was at last accounts being hotly pursued by a deputy sheriff.

The reading by the Rev. George in the Washington street M. E. Church, Friday evening, was excellent, and demonstrated clearly that the gentleman was gifted in a high degree with elocutionary powers.—Phoenix Gazette.

The Star says: The recent special grand jury is reported to have cost the county in the neighborhood of \$15,000. As a result of five weeks labor for seventeen men, not one conviction has been secured, nor is there any probability that any will be.

The Southern Pacific has just made a contract with the Quijotas bonanza firms for special rates for a number of car loads of mining machinery to be shipped to Tucson. This settles the question in regard to the matter of the building of a mill at Quijotas.

Tom Morris, a blacksmith, and H. N. Thomson got into a little altercation the other day in which sledge hammers and scrapers were the principal weapons. The scraper in the hands of Thomson got away with the works leaving Tom with a badly bruised head.—Willcox Stockman.

It is reported that a movement is on foot in and around Pleasant Valley towards cutting off from Yavapai county and annexing to Gila, a tract of territory embracing Pleasant Valley and running up the Tonto to the Mogollons.

A PROGRESSIVE CITY.

The opprobrious appellation of "old fogey" can no longer be applied to the city of St. Louis. Of late years it has made marked progress, and her citizens have shown wonderful enterprise which is redounding to their own benefit and the rapid growth of the city. An exposition of unusual merit has been in progress there for more than a month, and has attracted thither thousands of visitors from all the surrounding States.

The annual fair was held last week and the display of blooded stock and varied agricultural and industrial products surpassed in excellence any similar exhibition ever held in the United States. The carnival of the Veiled Prophets, which is celebrated during fair week, rivalled the Mardi Gras pageant at New Orleans, and the nightly illumination of the principle streets by numerous electric lights and a million gas jets, is another attractive feature of fair week. On Thursday, the 9th inst., the attendance at the fair grounds was 115,000. It is estimated that more than 100,000 strangers visited the city last week. This immense influx of visitors yearly can not help but greatly promote the city's commerce.

On November 17th the National Cattle Convention will meet there. Every State and Territory in the west will be well represented on that occasion, and cattle men may rest assured they will be well entertained.

St. Louis will ere long be as famous for her hospitality and enterprise as she was a few years ago for a lack of them.

China besides having France for an enemy, is antagonized by the St. Louis Fair Association, by the adoption of the following rule: "Any horse, mare or gelding, having been gingered or otherwise doctored to improve the appearance of the animal, shall be summarily dismissed from the arena by the director in charge." Ginger is one of China's principle exports, which is chiefly used in America for setting up the tails of horses when it is important to show them to the best advantage. Since nicking was abandoned, the use of ginger has been resorted to for its enlivening properties. A jockey is never without a pocket full of it, and when applied up goes the tail and at once the animal is aglow, restive and difficult of restraint. It is under such circumstances that the horse, mare or gelding makes the best time and, like a dog with a can to his tail, attends strictly to business. It is suggested that the only way that Belva Lockwood, a candidate for the Presidency, can reach the White House is through the agency of horse flesh and ginger.

Magnitude of our Internal Commerce.

The matter of chief importance treated of in the annual report of Mr. Nimmo, of the Bureau of Statistics, is the enormous magnitude of our internal commerce. It is shown that the value of the products of the various industries of the United States is seven times the total value of our foreign commerce, nearly three times the total value of the foreign commerce of Great Britain and Ireland and five times the total value of the foreign commerce of France, including in each case both imports and exports. The total value of the products of industry in the United States is also shown to be a little more than twice the total value of exports of merchandise from all the countries of Europe. The United States is now the largest manufacturing country on the globe. The value of the products of American manufacture consumed at home is five times the value of the manufactured products of Great Britain and Ireland exported to all other countries and more than fourteen times the value of manufactured products from France to all other countries. The report shows that the total value of exports of merchandise from and imports into California, Oregon and Washington Territory for the year ending June 30, 1884, was \$83,565,814. The value of exports was \$46,386,284 and imports \$37,179,530.

The sporting fraternity of New York City were, on Monday night, treated to a rattling glove fight between Charles Mitchell, of England, and Dominick McCaffrey, of Pittsburg, both of whom are scientific sparrers. Four rounds were fought and both men received considerable punishment, but McCaffrey got the best of the fight. At the end of the fourth round the excitement was so great that the police stepped in and stopped the fight. The referee then awarded the fight to McCaffrey.

The popular vote in 1880 for President aggregated 9,204,419. Garfield received 4,442,950 votes, and Hancock 4,442,035; majority for Garfield, 915. The vote for James B. Weaver (Greenback) was 306,867, and for James Black of Pennsylvania, the Prohibition candidate, 12,567.
